## TECHNICAL DATA SHEET SUPER START MOTOR

Ref. : 37200 - 37400

### 1. GENERAL DESCRIPTION

Professional grade engine starting fluid.

A balanced formulation combining active, volatile solvents, upper cylinder lubricant and corrosion inhibitors, each designed to play a vital part in starting engines. The ingredients are carefully blended to ensure the correct type of initial starting in the combustion chamber and to promote immediate combustion.

### 2. FEATURES

- High volatility provides the necessary fuel vapours to obtain a combustible air/fuel mixture, even at low temperatures and high humidity.
- Ensures fast, economical starting of all diesel and gasoline engines.
- Reduces starter motor and spark plug wear.
- Saves battery strain and engine wear during cold start.
- Saves time and money.
- An essential tool, particularly in winter, after long periods of standstill and under humid climatic conditions.
- Aerosols use butan-propane propellant to maintain high pressure to the very last fluid in the can.

### 3. APPLICATIONS

- Cars
- Trucks
- Busses
- Tractors
- Motorbikes and motorcycles
- Chain saws
- Boats (in-board and out board)
- Go-carts
- Stationary engines
- Compressors
- Diesel, gasoline and kerosene engines

### 4. DIRECTIONS

- Spray briefly into air intake or filter, giving the product some time to evaporate.
- Accelerate slightly during starting.
- Repeat if necessary.
- The use of choke (for gasoline engines) and glow plugs (for diesel engines) is not necessary.
- Use only until engine is started. Do not use in confined areas.
- Always follow the recommendations in the instruction manual of the engine manufacturer.

### 6. PACKAGING

aerosol : 12 x 200 ml – 12 x 400 ml

REF 37200 – 200 ml Bar code Nr.8028687372007 ----

REF 37400 – 400 ml Bar code Nr.8028687374001

8 028687 372007
